Baby-Teenager

Almost human!

Formax[®] Babies, Kids and Teenager apparel

fit mannequins are built upon the Theory of Body Shapes[®] (copyright Cad Modelling Ergonomics) that identifies recurrent morphological families with correct body shapes and volumes of worldwide population. Acting as the proper and constant fit verification tools, they reproduce the most frequent baby, kid and teenager body shapes in the world, from the slimmer till the more robust ones to guarantee the success of the clothing & ergonomic devices collections.

Children's heights and body shapes - unisex

Regular body shapes - girls

Overweight body shapes - girls

Regular body shapes - boys

Overweight body shapes - boys
